# PAWSITIVE SHELTER MANAGEMENT SYSTEM

# CHANGING DNS SETTINGS

# CHANGING DNS SETTINGS

Click on the three vertical dots in the top-right corner to open the Chrome menu.

Select "Settings" from the dropdown menu.

In the Settings page, click on the “Privacy and security”.

The screenshot shows the Google Chrome Settings page. On the left, a sidebar lists various settings categories: You and Google, Autofill and passwords, Privacy and security (which is highlighted with a blue border), Performance, Appearance, Search engine, Default browser, and On startup. To the right of the sidebar is a main content area. At the top of this area is a search bar labeled "Search settings". Below the search bar, there's a section titled "You and Google" which includes a profile picture of a person named Jiaxin, who is syncing to the email address jxin2367@gmail.com. There is a "Turn off" button next to the profile. The main content area also contains links for "Sync and Google services", "Manage your Google Account", "Customize your Chrome profile", and "Import bookmarks and settings".

# ACCESSING THE SYSTEM

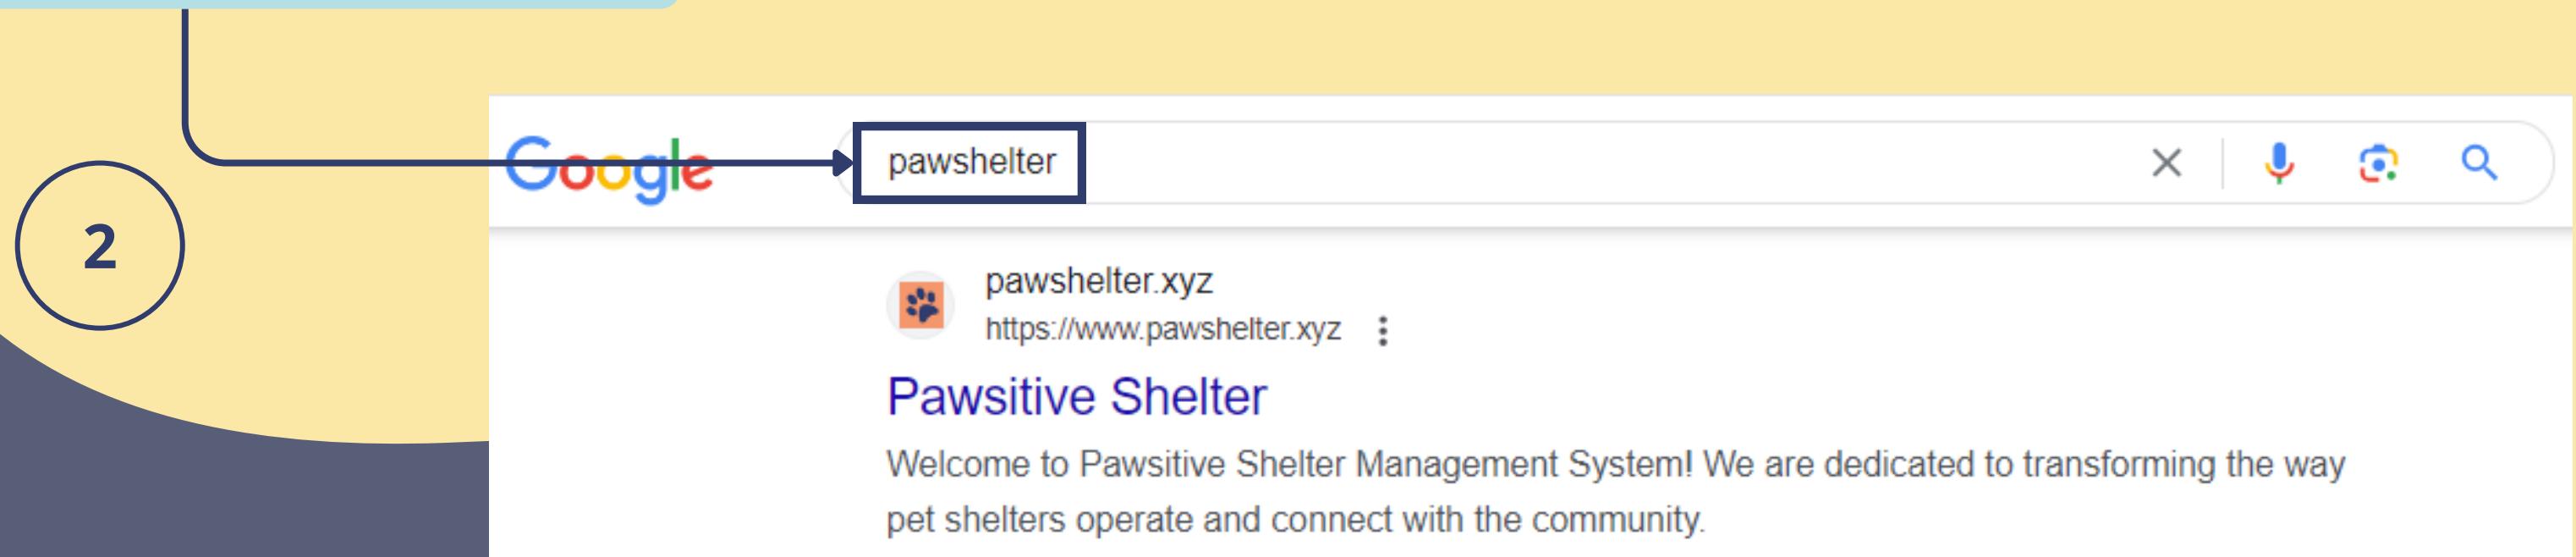

# ACCESSING THE SYSTEM

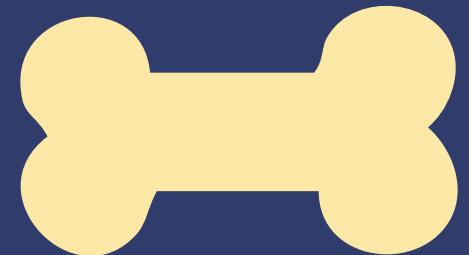

Search “Pawshelter” in browser’s search engine.

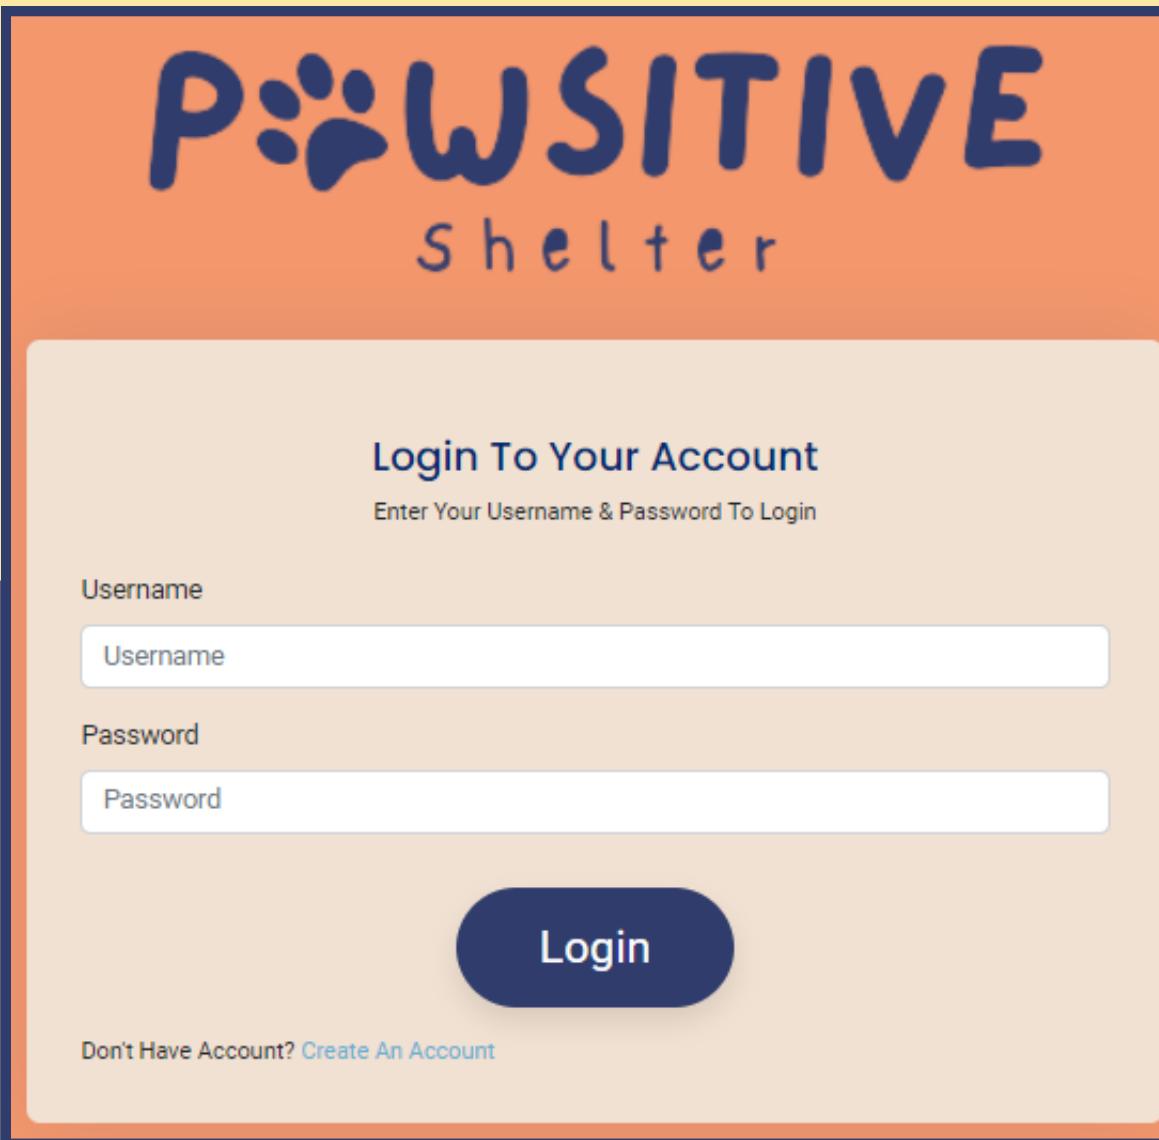

In the address bar of web browser, type “pawshelter.xyz” to access the Pawsitive Shelter Management System.

# LOGIN & REGISTER

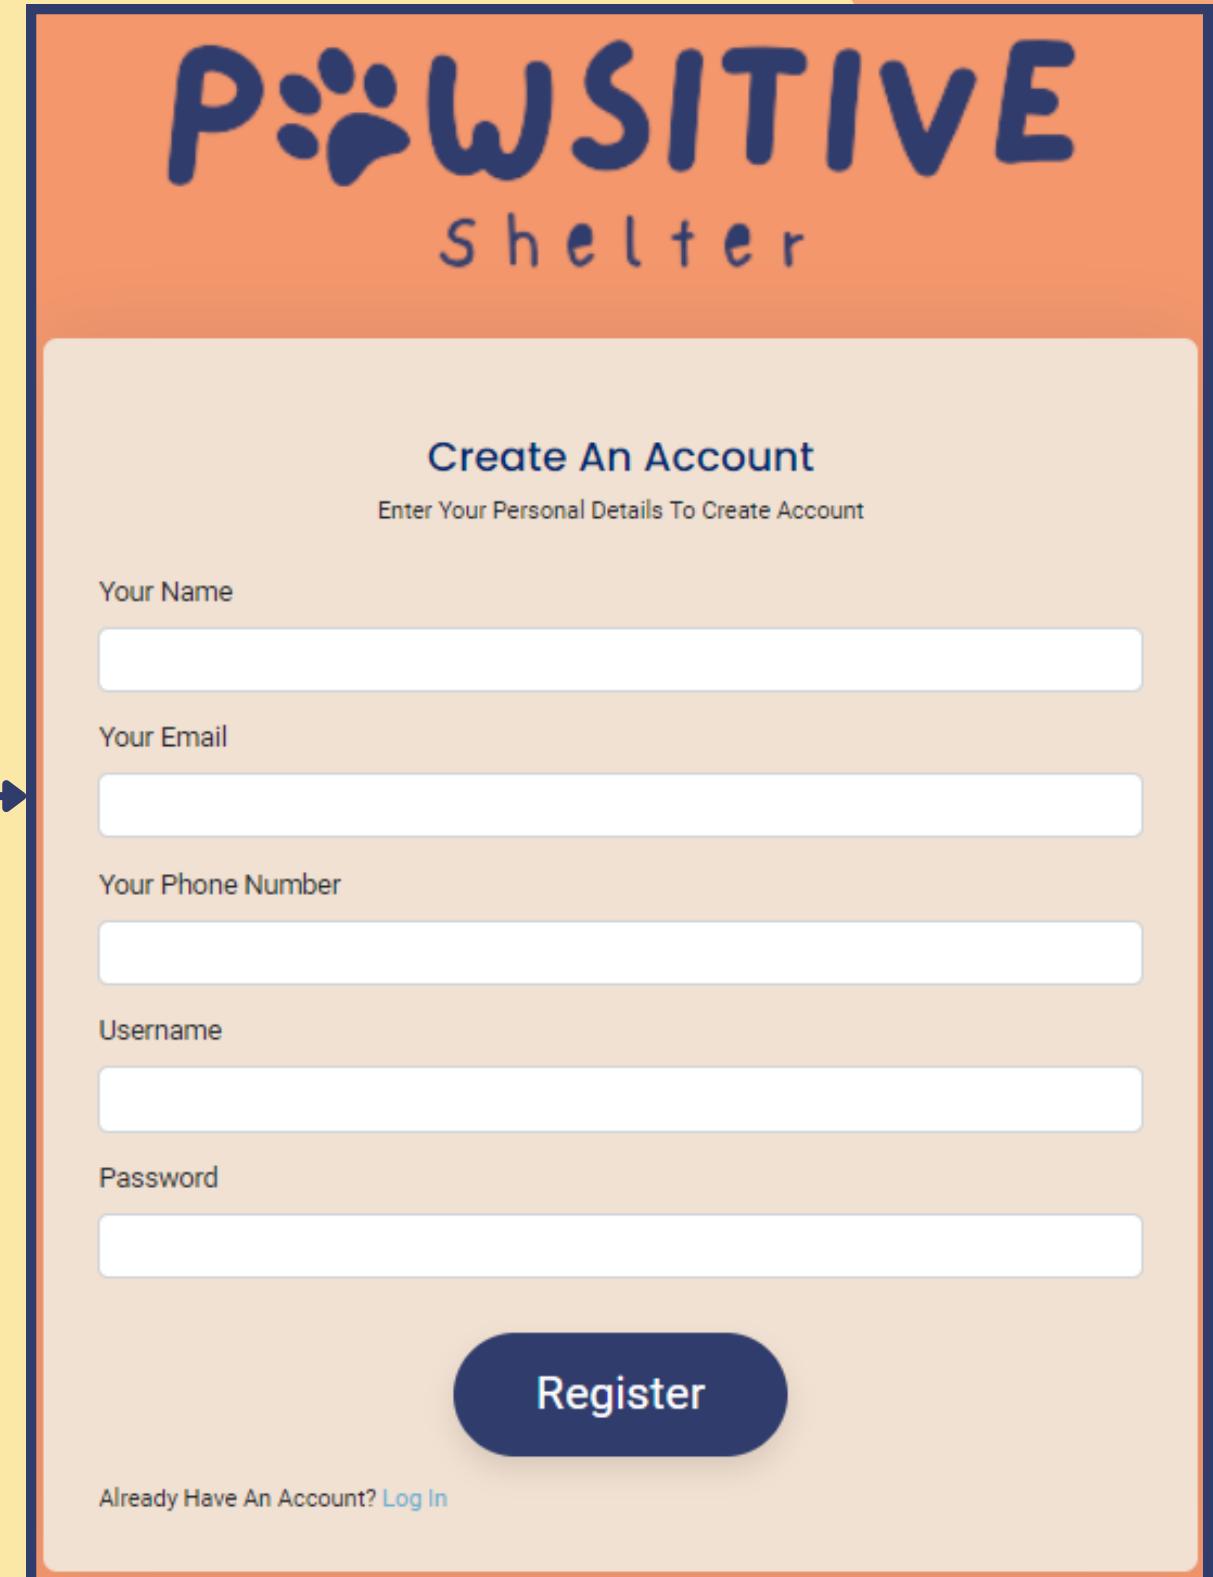

# LOGIN & REGISTER

The login page features the Pawsitive Shelter logo at the top. Below it, a heading says "Login To Your Account" with a sub-instruction "Enter Your Username & Password To Login". There are two input fields: "Username" and "Password", each with a placeholder. A blue "Login" button is centered below the inputs. At the bottom, a link reads "Don't Have Account? Create An Account".

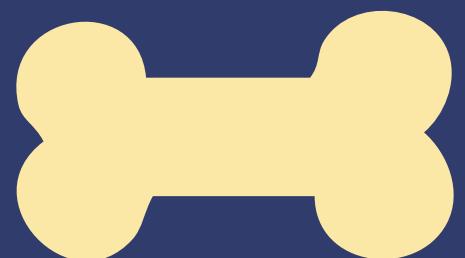

If you are an existing user, login using your username and password.

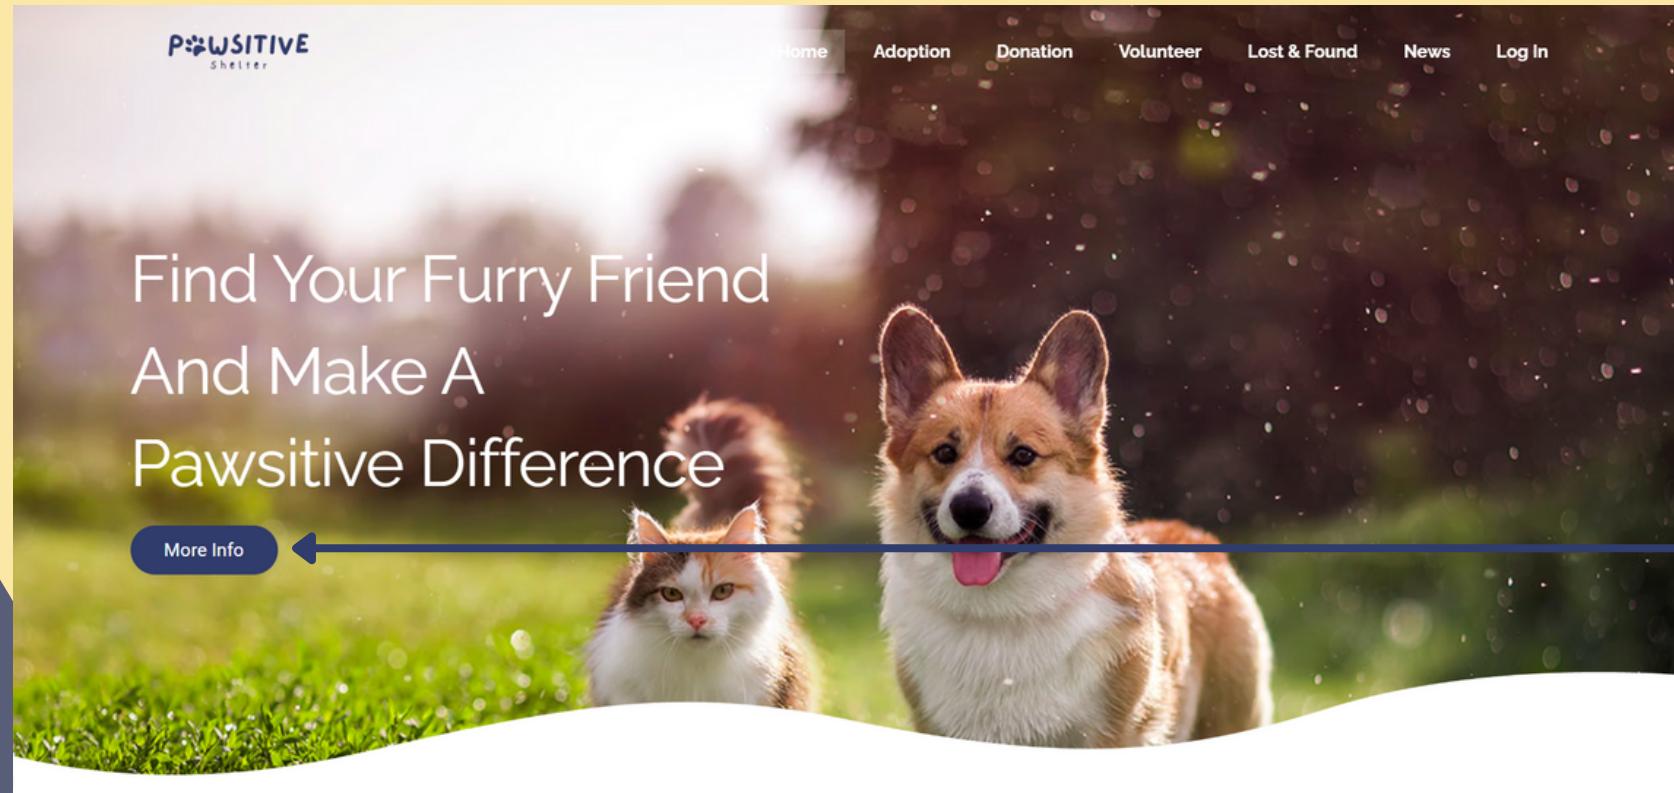

The register page features the Pawsitive Shelter logo at the top. Below it, a heading says "Create An Account" with a sub-instruction "Enter Your Personal Details To Create Account". There are five input fields: "Your Name", "Your Email", "Your Phone Number", "Username", and "Password", each with a placeholder. A blue "Register" button is centered below the inputs. At the bottom, a link reads "Already Have An Account? Log In".

If you are a new user, fill in the information needed to create a new account to login.

**Family On Road Trip Rescue Stray Dog, End Up Adopting Him**

On A Cross-Country Journey From Their Home In Virginia To Visit Relations, One Group Of Good Samaritans Couldn't Have Expected How Their Family Was About To Grow. The Encounter Unfolded When The Travelers Discovered Four-Year-Old Cheese—A Dog That Had Been Abandoned On The Side Of The Road. After Spending Nearly An Hour Coaxing Him Into Their Car, The Family Decided They Needed Help And Drove Him To Wichita Animal Services (WAS). Staff There Were Quick To Fall In Love With The Charming Furball, And Arranged For Him To Be Moved To The Kansas Humane Society (KHS) For Further Care. "Cheese Is 4 Years Old," The KHS Told Newsweek. "We Are Unsure About His Breed, As We Do Not Breed Test. We Know Nothing About His History, Nor Do We Know How He Ended Up On The Side Of The Road. He Came To Us Without A Microchip." Each Year 6.3 Million Pets Enter U.S. Shelters, Which Is An Average Of 17,260 A Day, According To The American Society For The Prevention Of Cruelty To Animals. The Number Of Dogs And Cats Taken In By Pet Shelters Hit 46,807 During January 2023, An Increase Of 1,744 Compared With January 2022, The 24Pet 'Shelter Watch Report' Found. Around 920,000 Surrendered Animals Are Euthanized Every Year. Shelters Are Striving To Minimize Euthanasia Rates By Promoting Adoption Campaigns, Spaying And Neutering Programs, And Behavior Rehabilitation. The Family's Newfound Affection For Cheese, The Dog They Found On The Side Of The Road, Prompted Them To Approach The KHS Intake Department To Inquire About The Adoption Process. But Fate Had A Twist In Store When, During His Stay At WAS, Cheese Was Exposed To Canine Infectious Respiratory Disease Complex (CIRDC), A Contagious Cold-Like Illness In Dogs. Despite The Setback, The Family Were Undeterred. They Canceled Their Flights But Placed A Hold On Cheese. Back At Home In Virginia, They Waited Patiently For Cheese's Recovery, And Once He Was Cleared They Wasted No Time In Booking A Flight To Wichita. Cheese Underwent A Successful Neuter Surgery, And Before Long The Shelter Staff Said A Bittersweet Farewell To The Dog As The Family Who First Found Him Officially Signed The Adoption Papers. "It Brings Us Great Joy Whenever Any Of Our Animals Leave For Their Forever Homes, But This One Was Particularly Special For A Lot Of Our Staff Had Grown Attached To Him," KHS Said. "We Wish Him Nothing But Happiness In Virginia. The Family Loves Him A Lot, And We Were Happy To Bring Them Together."
